-

PROJECTS

Movie Clustering

Apr 2018 - May 2018

<https://github.com/prithvi1972/movieClustering>

Clustered similar movies based on principle of Information Retrieval applied on the summary of movies scraped from IMDb. This could help in generating movie recommendations.

Spell Checker

Apr 2018 - May 2018

<https://github.com/prithvi1972/spellChecker>

Spell Checker based on Peter Norvig's approach trained with Statistical Learning Techniques over dictionary corpus using python.

routeJS

Jan 2018 - Feb 2018

<https://github.com/prithvi1972/routeJS>

A JS solution to implement routing, for a website built using PHP and the MVC design pattern. The main routing is done by the PHP code only. The JS only fetches the response via Ajax.

Earth 3D Model

Nov 2017 - Dec 2017

<https://prithvi1972.github.io/earth-model/>

A 3D Earth Model rendered for the web using three.js, a JavaScript library based on OpenGL.

Talk-it-out

May 2018 - Present

The project includes a Facebook chatbot and a website made for an NGO. The bot uses Dialogflow & Facebook APIs. The website included an admin panel, a chat client, test generation system and a real time session booking system using PHP for backend.
